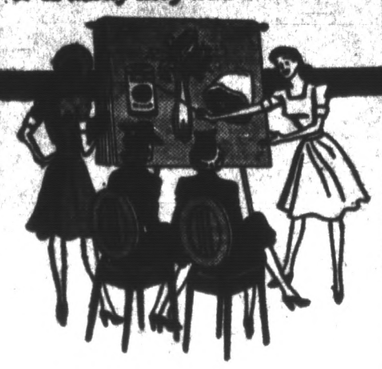
SAFEWAY *Homemakers' Guide*

★ *A list of money-saving foods*
★ *A timely story with a moral*



This is a lesson in shopping that's worth reading

Because the war has made "time" more precious than ever before, it has become practically a patriotic duty to streamline our daily schedules as much as possible. This means our food buying habits must change. For one of the best ways to save time is to cut shopping trips down by planning menus and market lists a week in advance. These suggestions from the Safeway Homemakers' Bureau should help you in your planning.

Perishability is the best guide for dividing off your purchases. Staples like flour, salt, potatoes, canned and packaged goods can be bought weeks in advance. It's wise to replace them as soon as they're used, so you won't be caught short and, too, so you won't have to carry huge armloads at the end of the week.

Extra-heavy purchases can be saved for times when you'll have your car or can share a neighbor's, lightening your bundles on other days. And another thing, enough citrus fruits, bacon, coffee, butter, and eggs can be bought all in one trip to last a week or more. With these out of the way early in the week, you'll need to think only about buying perishable foods.

Foods that will keep 3 to 4 days without spoiling include most meats; vegetables like carrots, turnips, beets, parsnips, squash, egg plant, corn, tomatoes; most under-ripe fruits and the like. Buying these foods in advance saves extra shopping trips.

The most perishable foods, those which will keep only a day or two, are fresh green and leafy vegetables; ripe fresh fruits; fresh fish, chicken, and ground meats; fresh dairy products; bread, cake, pastry.

To get your money's worth in vitamins and minerals, use fresh leafy and green vegetables the same day you buy them. As soon as you get them home, wash them quickly in a small amount of water, drain, and keep them in a covered container in the refrigerator until just ready to use. Don't pare or cut the vegetables until just time to cook or serve. Exposure to warm air, soaking in water, and cutting vegetables all tend to cause loss of vitamins and minerals.

All about cooking weights and measures

Read the July 17th Family Circle article "Kitchen Arithmetic" for complete charts on weights and measures and equivalents used in cooking. Out Thursday, *free* at Safeway.

SPINACH-CHEESE SOUFFLÉ

— puffs up high
— puffs up light
— tastes wonderful

by Dorothy Greig

If you have always been afraid to tackle a soufflé, here's the point to change to happy confidence. There's just nothing to the making of this soufflé. Follow directions exactly and it will huff up pridefully

The flavor is delicious—a combination of cheese, spinach and mushrooms. (We get the mushroom flavor by using condensed cream of mushroom soup.)

With it serve a salad and crusty rolls. Follow with dessert and coffee

2 cups seasoned cooked spinach (about 2 pounds fresh)
1 can condensed cream of mushroom soup
4 ounces pimiento cheese
4 eggs, separated

Empty the cream of mushroom soup into a saucepan and mix well. Heat and add the pimiento cheese, then stir until the cheese has melted. Add the egg yolks one at a time and stir after each one is added. Continue heating until mixture is slightly thickened, then cool and add the seasoned cooked spinach. Beat the egg whites until stiff and fold into the mixture. Pour into a casserole dish, place casserole in a pan of hot water and bake in a moderate (350°) oven for one hour or until firm. Serves 6.

Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.
